Pacific Oral & Maxillofacial Surgery Center · Hu-Friedy · Nobel Biocare · Dentronic

## 2027 IMPLANT EDUCATION | HYGIENE SERIES

The PWR Pair · Session 01

# PROTECT THE INVESTMENT.

## IMPLANT DENTISTRY SHOULDN'T STOP AFTER THE RESTORATION.

Two hours of lecture on biofilm and post-restorative implant maintenance, then two hours hands-on with live patients, protecting every implant and the team doing the work.

THE GOLD STANDARD · HU-FRIEDY PWR

### GLYCINE AIR POLISHING

Low-abrasive glycine lifts biofilm off implants and abutments, so every recall protects the restoration.

ONE HAND FREE · DENTRONIC

### DEXOR ROBOTIC ARM

About 1 in 7 dental professionals experience carpal tunnel syndrome. Dexor handles suction and retraction, for less strain and longer careers.

**WHEN**

### SATURDAY JANUARY 16, 2027

9:00 AM – 1:00 PM

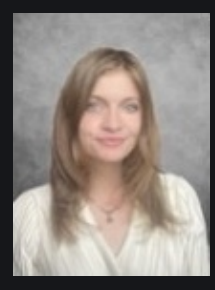

9–11 Lecture · 11–1 Live-patient hands-on

**WHERE**

### 1682 PINE STREET SAN FRANCISCO, CA

Pacific Oral & Maxillofacial Surgery Center

**SPEAKER**

**MORIAH SIMONDS**
**Hu-Friedy**
Instrumentation & Implant Maintenance Specialist

**4 CE CREDITS** • **TO REGISTER, GO TO WWW.PROPERNOBEL.COM**

2027 IMPLANT EDUCATION | HYGIENE SERIES

# 10 SESSIONS. ONE STANDARD OF CARE.

Implant dentistry shouldn't stop after the restoration. A year-long series for hygienists, assistants and the doctors who lead them, on keeping every implant healthy for life.

**2 HRS LECTURE**
Evidence and protocols

**2 HRS HANDS-ON**
You treat live patients yourself

**4 CE PER SESSION**
Saturdays · 9:00 AM – 1:00 PM

## 01 THE PWR PAIR: PROTECT THE INVESTMENT
Biofilm and glycine air polishing around implants.
**Sat, Jan 16 · San Francisco · Moriah Simonds**

## 02 READING PERI-IMPLANT TISSUE
Probing, bleeding and radiographs at every recall.
Date TBA

## 03 PIEZO SCALING AROUND IMPLANTS
Tips, power zones and Soft Mode on the PWR Pair.
Date TBA

## 04 PERI-IMPLANT MUCOSITIS
Catch it early and treat it chairside.
Date TBA

## 05 PERI-IMPLANTITIS
Non-surgical protocols and when to refer.
Date TBA

## 06 FULL-ARCH MAINTENANCE
Cleaning around and under fixed full-arch prostheses.
Date TBA

## 07 ONE HAND FREE: ERGONOMICS
Working with the Dexor robotic arm for a longer career.
Date TBA

## 08 HOME CARE PATIENTS ACTUALLY DO
Brushes, irrigators and coaching that sticks.
Date TBA

## 09 BUILDING YOUR MAINTENANCE PROGRAM
Recall intervals, team roles and patient buy-in.
Date TBA

## 10 IMPLANT TO RECALL: TEAM CAPSTONE
Surgical, restorative and hygiene teams, one case.
Date TBA

**UP TO 40 CE CREDITS • TO REGISTER, GO TO WWW.PROPERNOBEL.COM**

2027 IMPLANT EDUCATION | HYGIENE SERIES

# WHY WE PARTNERED.

Premium care for every patient doesn't end when the restoration goes in. We chose partners who protect both sides of the chair: the patient's implant, and the team that cares for it.

PROTECTING THE PATIENT

## HU-FRIEDY

- Trusted by dental professionals since 1908.
- The PWR Pair puts a piezo scaler and an air polisher in one unit, so one visit covers both.
- Low-abrasive glycine powder cleans implants and abutments without scratching them.
- Moriah Simonds, Instrumentation & Implant Maintenance Specialist, brings that expertise to the series.

PROTECTING THE TEAM

## DENTRONIC

- About 1 in 7 dental professionals experience carpal tunnel syndrome.
- Dexor is a robotic chairside assistant that handles suction and retraction.
- It is clinician-directed and fully supervised, so the provider stays in control.
- One hand free means less strain and longer careers.

TOGETHER **Better tools for the patient. Better ergonomics for the team. That's the Proper Bay Area Standard, from implant to restoration to recall.**
